

I spend a lot of time on the road, traveling to and from work daily. The up to date information I receive via my XM radio concerning traffic and weather is simply outstanding. I pay for these services and cannot understand and will not accept not receiving the best XM has to offer. The National Association of Broadcasters (NAB) should not be able to dictate what I am permitted to hear especially when the benefit is immeasurable. I respectfully urge that you the FCC reject NAB's petition 04-160 and remember that we the people are what make this country great.
